Written by people who made the move

Our founder, Alaa Marzouk, moved to Brazil as an Egyptian immigrant in 2014 and learned every step the hard way. This guide is what we wish someone had handed us on day one.

Figures and requirements as publicly listed in October 2026. They change often, and your free roadmap confirms the current figures. This guide is general information, not legal advice.

01

Is Argentina right for you?

Buenos Aires is a European-style capital at Latin American prices.

Spanish is essential for daily life, which is exactly why our team speaks it for you.

Private healthcare and international schools are good and affordable.

Winters are mild, summers hot.

The economy is volatile; keep savings in hard currency.

02

Your options

Residence today, and direct citizenship once the new program opens.

ROUTE	REQUIREMENT	OUTCOME
Rentista / pensioner residence	Proof of at least USD 1,500 monthly passive income or pension	Temporary residence, renewable; citizenship possible after two years of residence under current law
Citizenship by investment: contribution	USD 350,000 non-refundable contribution to the national treasury	Direct citizenship; program expected to open Q4 2026
Citizenship by investment: bond	USD 800,000 government bond created for the program	Direct citizenship; program expected to open Q4 2026

03

The new citizenship program

Argentina announced its citizenship by investment program on 2 October 2026, with applications expected to open in the last quarter of 2026. Two routes are planned: a non-refundable contribution of USD 350,000 to the national treasury, or a USD 800,000 subscription to a dedicated government bond. Applicants will pass checks on identity, source of funds, criminal record, reputation and immigration history, in line with OECD and FATF standards.

Why it matters: an Argentine passport offers visa-free travel to roughly 170 destinations and freedom of movement across the MERCOSUR bloc. EAM Global already has Spanish-speaking people in Buenos Aires, so you are not waiting for a firm to open an office after the program launches.
